

EPS - Ecubel Package Service

An all-round service offered by ECUBEL to YOU :

- Storage of your new hardware
- Delivery of your new hardware to the different sites
- Roll-out of your old hardware
- Storage of your replaced hardware for backup
- We pay for your old hardware!!
- You only have one party to handle with!!

Storage of your new hardware in our heated warehouse

- Your supplier delivers directly into our warehouse
- We send you a technical reporting of the received hardware
- Testing of the hardware + upgrades if necessary
- Insurance of the goods we receive (Storage and Distribution)

Distribution of your new hardware to your sites

- You give us your planning and the sites where the hardware is to deliver
- Physical installation of your new hardware
- Technical installation of your new hardware (on application)
- Removal of the old hardware
- Reporting about deliveries and installations

EPS ADVANTAGES

- We pay for your old hardware and take care of handling
- No administrative follow-up for you
- Your technical staff will be discharged
- Hardware is on the right place on the right time
- Only one party to handle with

ELS - Ecubel Leasing Services

We buy back the End of Leasing equipment directly from you

- You ask the residual value of the hardware to the Leasing Company and sell it for more money to Ecubel

ELS ADVANTAGES

- You save money to reinvest in other projects
- No problems with handling, Ecubel takes care of it
- You can rent (short or long term) your hardware to Ecubel after End of Leasing

" Since 20 years Ecubel mainly cooperates with well-known corporate accounts, banks, insurance & leasing companies "
